

Brother Knights,

We will have celebrated Easter before the next news letter so let me take this small space to wish all Brother Knights, their families and all they hold dear, a Happy and joyful Easter.

I want to remind everyone that the **final date** for acceptance of a scholarship application is **March 15**. Applications are available in the lounge or on line at KofC69.com/Newsletters/Events

A Conversation

Professor : You are Jewish, aren't you, son ?

Professor: So, you believe in GOD ?

Professor : Is GOD good ?

Professor: Is GOD all powerful ?

Professor: My brother died of cancer even though he prayed to GOD to heal him. Most of us would attempt to help others who are ill. But GOD didn't. How is this GOD good then? Hmm?

Professor: You can't answer, can you ? Let's start again, young fella. Is GOD good?

Professor: Is satan good ?

Professor: Where does satan come from ?

Professor: That's right. Tell me son, is there evil in this world?

Professor: Evil is everywhere, isn't it ? And GOD did make everything. Correct?

Professor: So who created evil ?

Professor: Is there sickness? Immorality? Hatred? Ugliness?

All these terrible things exist in the world, don't they?

Professor: So, who created them ?

Professor: Science says you have 5 Senses you use to identify and observe the world around you. Tell me, son, have you ever seen GOD?

Professor: Tell us if you have ever heard your GOD?

Professor: Have you ever felt your GOD, tasted your GOD, smelt your GOD? Have you ever had any sensory perception of GOD for that matter?

Professor: Yet you still believe in Him?

Professor : According to Empirical, Testable, Demonstrable Protocol, Science says your GOD doesn't exist. What do you say to that, son?

Professor: Yes, faith. And that is the problem Science has.

Professor: Yes.

Professor: Yes.

Student : Yes, sir.

Student : Absolutely, sir.

Student : Sure.

Student : Yes.

(Student was silent.)

Student : Yes.

Student : No.

Student : From ... GOD ...;

Student : Yes.

Student : Yes.

(Student did not answer.)

Student : Yes, sir.

(Student had no answer.)

Student : No, sir.

Student : No , sir.

Student : No, sir. I'm afraid I haven't.

Student : Yes.

Student : Nothing. I only have my faith.

Student : Professor, is there such a thing as heat?

Student : And is there such a thing as cold?

Student : No, sir. There isn't.

(The lecture theater became very quiet with this turn of events.)

Student : Sir, you can have lots of heat, even more heat, superheat, mega heat, white heat, a little heat or no heat. But we don't have anything called cold. We can hit 458 degrees below zero which is no heat, but we can't go any further after that. There is no such thing as cold. cold is only a word we use to describe the absence of heat. We cannot measure cold. Heat is energy. Cold is not the opposite of heat, sir, just the absence of it.

(There was pin-drop silence in the lecture theater.)

Professor: Yes. What is night if there isn't darkness?

Professor: So what is the point you are making, young man ?

Professor: Flawed ? Can you explain how?

Professor: If you are referring to the natural evolutionary process, yes, of course, I do.

(The Professor shook his head with a smile, beginning to realize where the argument was going.)

(The class was in uproar.)

(The class broke out into laughter.)

(The room was silent. The Professor stared at the student, his face unfathomable.)

Professor: I guess you'll have to take them on faith, son.

P.S.

That student was Albert EINSTEIN.

Student : What about darkness, Professor? Is there such a thing as darkness?

Student : You're wrong again, sir. Darkness is the absence of something. You can have low light, normal light, bright light, flashing light. But if you have no light constantly, you have nothing and its called darkness, isn't it? In reality, darkness isn't. If it is, well you would be able to make darkness darker, wouldn't you?

Student : Sir, my point is your philosophical premise is flawed.

Student : Sir, you are working on the premise of duality. You argue there is life and then there is death, a good GOD and a bad GOD. You are viewing the concept of GOD as something finite, something we can measure. Sir, Science can't even explain a thought. It uses electricity and magnetism, but has never seen, much less fully understood either one. To view death as the opposite of life is to be ignorant of the fact that death cannot exist as a substantive thing. Death is not the opposite of life: just the absence of it. Now tell me, Professor, do you teach your students that they evolved from a monkey?

Student : Have you ever observed evolution with your own eyes, sir?

Student : Since no one has ever observed the process of evolution at work and cannot even prove that this process is an on-going endeavor. Are you not teaching your opinion, sir? Are you not a scientist but a preacher?

Student : Is there anyone in the class who has ever seen the Professor's brain?

Student : Is there anyone here who has ever heard the Professor's brain, felt it, touched or smelt it? No one appears to have done so. So, according to the established Rules of Empirical, Stable, Demonstrable Protocol, Science says that you have no brain, sir. With all due respect, sir, how do we then trust your lectures, sir?

Student : That is it sir ... Exactly ! The link between man & GOD is FAITH. That is all that keeps things alive and moving.

K of C EASTER EGG HUNT

Saturday, March 30th
10:00 AM
(K of C yard area)

All brother Knights are invited to bring their children, grand children and great-grand children for this fun family activity.

We are even told the Easter Bunny is expected to make an appearance.

K of C FRENCH NIGHT

Saturday, June 1st
6:00 PM

Knights of Columbus Elder Council 69
460 Granby Road
Chicopee

Enjoy an evening filled with
French Food and French Music.

The dinner menu will have a French flavor and the music
entertainment will feature

Dennis Cote from Canada

Save the date!!
Add it to your calendar!!

Price of tickets and menu details to follow.
